Welcome to our Spring/Summer issue of the Review. As you can see, there is a lot of information related to events and programs in this issue.

In case you haven’t heard, the US Census will be taking place very soon. Things like school lunches, plans for highways and support for firefighters and families in need depend on an accurate census. Census results affect your community every day. I am urging each resident to complete the information. You can respond on-line, via telephone and US mail. Help shape the future of Auburn Hills.

Our popular events are back again this year! Don’t miss our 29th annual Easter Egg Hunt and Bonnet Contest on April 11, beginning at noon at Civic Center Park! Children of all ages are invited to hunt for Easter treats, enter the bonnet contest, and have their picture taken with the Easter Bunny. Our 21st annual Arbor Day will be celebrated on April 24. Join fellow neighbors and City Officials in celebrating by planting a symbolic tree. Check our website for information at www.auburnhills.org.

In addition to wonderful city events, Oakland County is celebrating its 200th birthday. Oakland County’s Bicentennial Committee is coordinating activities, celebrations and interactive online presentations with communities, historical societies, educators and educational institutions, service organizations and new collaborations to showcase the county’s rich and colorful history and make it relevant – and interesting – to you, your family, your friends and your life. Look for more information on the city’s website soon.

Are you looking to get more involved within Auburn Hills? The City provides opportunities for citizens to serve the community through a variety of boards and commissions. Our elected officials (City Council) are the governing body ultimately responsible to the community; however, the advisory role of citizen committees is vital to Auburn Hills’ success. If you are interested in open positions, please contact the Clerk’s Office at 248.370.9402.

5 SPRING SAFETY TIPS

1. Don’t underestimate the power and force of water. Remember, it’s never safe to drive or walk into any kind of flood waters.

2. If you’re caught on a flooded road and waters are rising rapidly around you, get out of the car quickly and move to higher ground. Most cars can be swept away by less than two feet of moving water.

3. Danger can lurk in the water: downed power lines or other debris may not be easily visible.

4. If you see a downed power line, move at least ten feet away from it – or anything touching it. If you’re driving and your car comes in contact with a downed power line, stay in your car.

5. Make a safety kit for home, and one for your vehicle. Include items like water, packaged foods that cooking isn’t necessary, manual can opener and basic utensils, medications and emergency numbers, and don’t forget the flashlight with batteries.

BE AWARE OF THE RISKS DURING WARMER TEMPERATURES

During warmer weather, there are motorcyclists, bicyclists, and kids of all ages out enjoying the sun.

- This beautiful weather brings out tipsy drivers leaving gatherings and teen drivers with a fresh license and free time. Be cautious and keep a safe distance from the motorist who seem impaired, distracted or lacking experience.

- The hot sun can send out a tremendous glare causing visual difficulty, leading to vehicle crashes. Prepare for the sunshine and leave a pair of sunglasses in your car.

- Take care of your passengers. On average, 39 children under the age of 15 die each year from heatstroke after being left in a hot vehicle. Never leave them or your pets alone in a vehicle.
Oakland County turns 200 years old this year and Auburn Hills has been a part of Oakland County’s history ever since Aaron Webster and his wife Sarah became Auburn Hills’ first permanent settlers. They purchased 320 acres of land along the Clinton River then built a sawmill and their home in what is today downtown Auburn Hills. Their early efforts attracted other settlers to the area creating a community which has grown over the years from those humble beginnings. Auburn Hills was originally Pontiac Township and downtown Auburn Hills started out as a small village named Auburn. Later that name changed to Amy and then to Auburn Heights before finally becoming Auburn Hills. Oakland County began as part of Macomb County before Oakland County was founded in 1819 and organized in 1820. Oakland County now boasts sixty-two communities including Auburn Hills within its borders and is one of the most prosperous counties in the country. Both Oakland County and Auburn Hills have gone through many changes in the past 200 years and it is time to celebrate this milestone birthday.

Many events are planned this year throughout Oakland County and every community will also receive a celebratory oak tree to plant commemorating Oakland County’s 200th birthday. Auburn Hills too is planning events that acknowledge this bicentennial milestone of our county so be watching for those announcements throughout the year.

MAINTAIN A HEALTHY LAWN

MOW HIGH, RECYCLE CLIPPINGS
- Mow at least 3 inches high
- Return clippings to recycle nutrients
- Sweep or blow clippings from walks and driveways onto the lawn
- Taller grass will discourage weeds and promote deeper roots, helping the lawn survive droughts

BE SMART WITH FERTILIZER
- Be patient in the spring – wait until May to fertilize
- Don’t fertilize if the ground is frozen or saturated with water
- Choose lawn fertilizers with low or no phosphorus (the middle number) and follow the directions
- Confirm spreader setting before applying
- Don’t fertilize or discharge clippings near lakes, rivers, streams or storm drains
- Sweep fertilizer granules from walks and driveways onto the lawn
- Wash your spreader on the grass

WATER REMINDERS
- Watering should not produce puddles. Lighter, more frequent watering is best
- Brown lawns are OK; dormancy is a natural response to drought; however, some water may be necessary in a drought of more than a month

For more healthy lawn care tips please visit MSU Turfgrass Science website at WWW.TURF.MSU.EDU

SUMMER CAR MAINTENANCE

Washing cars in your driveway can add pollutants to our waterways. Wash water that enters storm drains often contains detergents, oil, grease, heavy metals, and dirt. Vehicle fluids dumped down a storm drain or directly into a waterway can cause serious problems. The amount it takes to fill your automobile’s engine can form an eight acre oil slick in a river. Other vehicle fluids are poisonous to people, fish, and wildlife.

WASHING TIPS
- Wash your car at commercial carwashes that use water efficiently and dispose it properly
- Remove dirt around wheels first with a wire brush. Collect the soil with a broom and dispose of it in a manner that will keep it out of storm drains
- Use non-phosphate biodegradable detergents and mild soaps, such as vegetable oil-based soaps
- Wash one section of the car at a time and rinse it quickly using a pistol grip nozzle with high pressure and low volume

MAINTENANCE TIPS
- If you change vehicle fluids at home, take the waste fluids to a recycling center or an oil change facility
- Always use a drip pan under your work and use funnels when transferring fluids
- Never mix waste oil with gasoline, solvents or other liquid
- Change vehicle fluids in the garage whenever possible
- If a spill occurs, pour kitty litter, saw dust or cornmeal on spill to absorb the liquid. Place the waste material in a strong plastic bag and dispose of it with your trash

DON’T DUMP

Enjoying the summer in your recreation vehicle? Protect the environment at the same time! Dispose of waste properly; take all waste to a facility - don’t dump!

The facility below accepts RV waste:
A&S RV Center Inc.
2375 Opdyke, Auburn Hills
$10 per load; Call for hours - 248-373-5811
ONLY RAIN IN THE DRAIN

Storm drains lead directly to our lakes and streams. Oil, pet waste, leaves, or dirty water from washing your car that enters a storm drain gets into our lakes and streams. With almost five million people living in Southeast Michigan, we all need to be aware of what goes into our storm drains. Remember, only rain in the drain!

Here are some simple steps you can take to help keep pollutants out of storm drains and keep our water clean.

To report pollution, call the City of Auburn Hills Community Development Department at 248-364-6900.

Do you have extra fertilizer, grass clippings, or dirt on your driveway? Sweep it back onto your lawn. Hosing your driveway sends these pollutants into storm drains that lead to our lakes and streams.

Volunteer to label storm drains in your neighborhood to inform residents that storm drains flow directly to our lakes and streams. Encourage citizens to contact their local community for more information on storm drain stenciling programs.

Pick up after your pets! Pet waste contains bacteria that are harmful to us and our water. Leaving it on the sidewalk or lawn means the bacteria will be transported into the storm drains, and then into our lakes and streams.

Residences that have been chosen to be surveyed should have already received these surveys in the mail. We appreciate your prompt response and willingness to help us and your neighbors out!
