Chief Massingill Retires

10/3/2025

Friday, October 3rd, marked Chief Adam Massingill's last day with Auburn Hills Fire Department. After a long and distinguished career, Chief Massingill has retired. Although he had only been with our department for 3 ½ years, he saw AHFD through the purchase of a aerial truck, station toning system, station software system, a quint, a UTV, a rescue vehicle, gear extractor and dryer, LifePak 15 cardiac monitor/defibrillator, SCBA fill station and regional fire suppression nozzles. He was also instrumental in the modernization project of all three stations and the most recent 5 year strategic plan. He also shared his interest and experience in Incident Management Training with the department, teaching Incident Command, Tactical Emergency Casualty Care, and Prehospital Trauma Life Support courses. Chief Massingill has left an indelible mark on AHFD and we wish him the best in his retirement.

R. Grant Graham Station Visit

10/14/2025

Students from the 2nd grade classes at R. Grant Graham Elementary visited the city campus, touring the Community Center, Police Department and Fire Department. While at the fire station, the children learned about the rescues, the engines, firefighter gear, and tried their hand at spraying the fire hose.

Baby Boy Safely Delivered

10/24/2025

B-shift was dispatched to WB M-59 for a childbirth in progress on the shoulder of the road. AHFD crews successfully delivered a healthy baby boy in the ~CONT.

back of an ambulance prior to heading to the hospital. The first responders provided expert care throughout the delivery. The crew assisted the father in cutting the umbilical cord. Both mother and baby were safely transported and are reported to be doing well.

Residential Structure Fire

10/24/2025

B-shift was also called to a residential structure fire, with reports of smoke coming out the front door. When crews arrived, they were informed that the fire was in the back bedroom but had been controlled by the homeowner. Engine 3 crew stretched a line into the back bedroom to extinguish the remaining fire. Ladder 2 ventilated the home. It appeared that the fire was caused by piling clothes and other items on top of an overloaded power strip in the bedroom. No injuries were reported. This serves as a good reminder that homeowners should be aware of the number of plugs used in a power strip. Keep the strip free from clothing and other items and unplug them when a breaker is tripped.

20th Annual Spooktacular

10/25/2025

The city of Auburn Hills hosted its 20th Annual Spooktacular Event and the Fire Department was proud to participate. The perfect weather was only one of a number of reasons over 1,000 children and their families attended this fun event, posing for photos and picking up treats.
