MANDATORY WATER RESTRICTION DECLARED

WATER USE IS FOR ESSENTIAL NEED ONLY

Effective immediately, The City of Auburn Hills DPW is issuing a MANDATORY water restriction for the entire City of Auburn Hills.

RESIDENTS AND WATER USERS SHALL CEASE WATER USAGE FOR NON-NECESSARY ACTIVITIES such as watering lawns, washing vehicles, filling outdoor pools, or other recreational water activities.

The City of Auburn Hills DPW is taking this precaution because of a GLWA system pump station power outage, which has caused lower pressures to the area.

The water system is in an emergency operational state at the moment, so the above actions will help keep water available for all customers in the area, and adjacent Cities and Townships. You may witness or experience less than normal water pressure in all areas.

Failure to comply with this mandate may result in fines and/or TERMINATION of water service. Sec. 74-210.a(2) of the Auburn Hills code of ordinances governs this action.

The City of Auburn Hills DPW will continue to monitor the water system, but this restriction will remain in effect until further notice. **The City will advise when the proper conditions have been met and the restriction will be lifted.**

If there are any questions regarding this matter, you may contact The City of Auburn Hills DPW at (248) 391-3777.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
