Structure Fire

7/03/2026

B shift was dispatched to a structure fire. Upon arrival, crews found a working fire in a shed. High tension wires were found near the structure, it was unknown if they were live. Fire was spreading to other primary lines. Water was applied to the fire to limit exposure.

DTE's arrival was delayed due to thousands of people without power. Once DTE arrived and the fire was extinguished, a TIC was used to confirm all hot spots were out. No injuries were reported.

Pinewood Derby

7/17/2026

Auburn Hills Fire Department was once again invited to participate in JR Automation's annual Pinewood Derby. 37 vehicles competed in this year's race, with our own Captain Bryan Shambeck taking the victory! A potluck lunch was provided for all the racers and a great time was had by all!

Summer Camp

7/22/2026

The department enjoys participating in the AH Summer Camp each year. This year children visited the station to learn about life as a firefighter. They were able to see an ambulance and a fire truck up close, spray a firehose and explore the station. The next day they saw the other end of the firehose while being sprayed with water!
