Fire Department Millage

8/05/2026

On August 4th, Auburn Hills residents were asked to approve 1.5-mill increase on their property tax bill to support Fire and Emergency Medical Services in the community. Residents demonstrated their strong support for the continued investment in public safety by approving the proposal, providing the Auburn Hills Fire Department with additional resources to maintain and enhance the vital services provided to the community.

Executive Fire Officer

8/07/2026

Auburn Hills Fire Chief Trevin Robinson has recently completed the extremely challenging Executive Fire Officer Program (EFOP). The EFOP spans a two-year period with four courses, each lasting 1-2 weeks. It is a selective and competitive application process, vetting over 500 applicants while choosing less than 100. Certain criteria must be met; the candidate must show leadership and experience, excellent communication skills, possess at least a bachelor's degree, and model high ethical standards, integrity and professionalism.

During this time, Chief Robinson was also completing the equally demanding Staff and Command Program through Eastern Michigan University and accepting the new position of Fire Chief! Auburn Hills is so fortunate to have such a hard-working, dedicated leader. Congratulations Chief Robinson!

National Night Out

8/11/2026

The Fire Department, the Police Department and several local businesses hosted National Night Out for the community to enjoy rock climbing, a dunk tank, inflatables, live music, food, raffles, and more! Thank you to all the sponsors who helped make for an enjoyable evening!

Residential Fire

8/17/2026

C-Shift was called to a residential fire with reports of flames and smoke seen coming from the garage. Upon arrival, Ladder 1 crew found the resident inside the garage near an electric vehicle charging station, but no flames or smoke visible. A burn mark was noticed running up the wall approximately 8 feet in height, starting from the charging station. The resident unplugged the vehicle and backed it out of the garage before firefighters arrived. Ladder 1 crew used a water can to ensure the fire was out and to cool the area. The breaker was confirmed to be off. Overhaul by the firefighters and a thermal imaging camera confirmed the fire was out. The resident was advised not to turn the breaker on and to contact a professional for repairs. There were no reported injuries.
